3. Some sort of filter or search to narrow down listings
4. Pet profiles
 - a. Include an image or image(s) with a biography and plenty of detail
 - b. Health info, personality, etc.
5. Some sort of application page to apply for a listed pet

Extra (if time permits)

1. Some sort of contact form to reach out to the shelter
2. Favorites list

Ronit's Persona

Mark

About:

Age: 30

Location: Hartford, CT

Bio:

Mark has been looking to adopt a dog for a few months. He has tried going to adoption centers in person but has struggled to find what he is looking for. He is now trying an online pet adoption app as a potential solution.

Goals:

- Adopt a pet dog
- Adopt a Golden Retriever

Frustrations:

- Has struggled finding the right dog breed in his area

Ronit's scenario

Marks logs in to the application

Mark fills out an online questionnaire on the website

Mark waits for the questionnaire to be approved by PAO management

Mark searches for a golden retriever

Marks selects the golden retriever to adopt

Ronit's user stories

1. As an adopter, Mark wants to be able to search for certain breeds so that he can adopt a Golden Retriever.
2. As an adopter, Mark wants to see pictures of the pets so that he can see what the pet he is going to adopt looks like.
3. As an adopter, Mark wants to know where the pet is located so he can see how far he has to go to adopt it.

Joseph P. Persona

Sarah

About

Age: 19

Location: Waterbury, CT

Job: Retail

Biography

Sarah lives at home with her parents and already has 3 dogs; Chloe, Cleo and Coco. However, she really enjoys going on social media and pet sites to look at all of the animals as a pastime activity. Therefore, she has found this new pet adoption website and is excited to see the pictures and read about all of the animals.

Goals

- Use the pet adoption website to view all of the animals

Past Frustrations

- Some websites are clunky and make the pet viewing process annoying or difficult
- Some websites don't include enough information about the pets, making it not as enjoyable to look and read about them.

Joseph P. Scenario

Sarah creates a new profile

Sarah logs in and navigates to the home page

Sarah, w/o filling in a questionnaire, views the various animal listings

Sarah reads about the animals and views their picture(s)

Sarah searches for Golden Retrievers and Labrador dogs

Sarah reads about the animals and views their picture(s)

Sarah logs out of the website

Joseph P. User Stories

1. As a user of the website, Sarah wants to be able to view all the animal listings without needing to fill in any application
2. As a user of the website, Sarah wants to be able to easily find dogs based off of their breed
3. As a user of the website, Sarah wants it to be very easy to browse all of the animal listings without needing to constantly hit back on the webpage.

Saoudkhan Pathan

Jack

25
Single
New York City

Bio

- Jamal lives alone and works remotely as a software developer at Apple. He recently moved into a pet-friendly apartment in NYC and is thinking about adopting a dog to keep him company during the day. Jamal works long hours and doesn't want to waste time visiting shelters in the city that don't have what he's looking for and are usually packed. He's exploring online adoption apps and values efficient filtering, accurate pet info, and a clean interface

Goals

- Adopt a medium-sized and low-maintenance dog
- Avoid wasting time with unnecessary shelter visits

Past Frustrations

- Adoption sites with poor search filters
- Listings with no images and missing behavior info

Saoudkhans Scenario

Jamal opens the pet adoption app during his lunch break

He creates a profile and selects his preferences: medium-sized dog with calm temperaments

The app gives him a list of matches

He clicks on a dog named Riley and reads the full profile, including energy level, age, and training history

He logs out, feeling confident that the app saved him hours of browsing

Saoudkhans User Stories

As an adopter, Jack want to create a user profile with my pet preferences to receive better suggestions.

As an adopter, Jack want the app to be user-friendly so he can use it on breaks or during commutes.

As an adopter, Jack wants the app to only show available pets so he does not get his hopes up for unavailable animals

Rayna Spicher's Persona

Caitlin

Age: 23

Location: New Haven, CT

Bio:

Caitlin has recently moved from a small apartment to a larger house. She has a cat, and is thinking about adopting a dog now that she has a larger living space. However, she is worried that she may not be able to find a dog that will get along with her cat. She is looking at various pet adoption websites to try and find a dog who would be the right fit.

Goals:

- Adopt a small dog who is friendly and gets along with cats
- Use the pet adoption app to find the right dog for her

Past Frustrations:

- Some websites do not include the personalities of the pets, making it hard to find a pet that would get along with her cat.
- Some websites do not include images of the pets.

Rayna's Scenario

Caitlin opens the pet adoption app and logs in

She scrolls through the available pets on the app

She selects filters to narrow her search, selecting the filter for small dogs and friendly personality

She finds several potential matches, and clicks on each of them to read more

She finds a pet that she would like to adopt, so she fills out the questionnaire

She waits for PAO management to approve the questionnaire, and in the meantime she logs out of the app

Rayna's User Stories

As an adopter, Caitlin wants to be able to filter the pets available for adoption by personality and size, so that she can find a pet that will get along with her cat.

As an adopter, Caitlin wants the app to be user-friendly so she can easily find a pet she would like to adopt.

As an adopter, Caitlin wants the questionnaire to be easy to access on the app, so that the pet adoption process is seamless when she decides on a pet to adopt.
